Bachelor of Science in Microbiology

2018-2021

Bachelor of Science in Microbiology
ISCOM University, Benin Republic

Professional Experience

Freelance Full Stack Developer
Remote   2024 – Present

- Designed, developed, and deployed over 20 high-performance websites and web apps for clients globally, using React, Node.js, and MongoDB.
- Worked with Supadao on blockchain-integrated solutions, delivering secure, scalable decentralized applications.
- Collaborated with marketing agencies and e-commerce brands such as bundled, spring mall x to build custom CMS platforms and optimize online stores.
- Spearheaded API integrations with third-party services (e.g. flutterwave, Paystack, PayPal) for seamless user experiences.
- Improved website performance and SEO by implementing lazy loading, image optimization, and schema markup.

Software Developer (Contract) – Pepsa.co
Remote   2023 – 2024

- Built and maintained scalable RESTful APIs using Express.js and integrated robust authentication workflows.
- Created dynamic dashboards for analytics using React and Chart.js, providing real-time business insights.
- Collaborated with UI/UX designers and QA teams to deliver polished products that exceeded client expectations.

Selected Projects
NFT Marketplace – Supadao

- Developed a fully functional NFT marketplace with wallet integration, real-time bidding, and advanced search filters.
- Ensured high security and efficiency by implementing smart contract interactions and encryption protocols.

Selected Projects
E-commerce Platform – Bundlet

- Created a feature-rich online store with product customization, order tracking, and payment gateway integrations.
- Designed a customer-centric UI using Next.js and Tailwind CSS.
